

CARDS HAD PREDICTED TRULY

Forecast Good Fortune Coming to New York Woman, and the Next Day It Came.

For fifteen years Mrs. Nellie Cousins told her fortune with cards, never losing confidence in their efficacy. For fifteen years she went about her employment in stores in order to help her husband maintain their little home.

At night after her work was cleared away she went back to the faithful old deck of cards. Sometimes the cards ran good for her, sometimes not. But when she turned up the fire and ten of diamonds six times in succession of a recent Sunday night she was overjoyed.

"Our fortune is going to change," she told her husband, according to the New York Sun. "I know it is. The cards tell me so and the cards do not lie."

Confirmation was not long delayed. A special delivery carrier came knocking at her door the following Monday morning. Mrs. Cousins took the letter. It was from an attorney in Philadelphia. It told her she was heir to the \$15,000 estate of Mrs. Carrie Drexel, Philadelphia, an aunt.

Mrs. Cousins, who is sixty years old, had not heard from her aunt in fifteen years.

She put the letter aside and went to her work. She will finish out the week despite the fact that the fortune is enough to keep her in comfort the rest of her life.

PLEASANT OUTLOOK FOR JAPS

Coming Division of the World, Foretold by Oriental Artist, Gives That Race Commanding Position.

A prophetic map of the world published in a recent issue of Tokyo Puck has been the cause of indignant and amused comment in the Australian papers, according to advices received from Sydney.

The map shows the British Empire reduced to the British Isles, India and Canada. All British African possessions are in the hands of a black republic.

Australia and New Zealand, Fiji, the East Indies and Manchuria are Japanese, and Persia is credited to Russia.

Below the map are some figures giving the relative standings of the nations of the earth when the Japanese artist's dreams come true.

Japan is in the first place. England is second, United States third, China fourth, Madagascar (used as a tuberculosis sanitarium) fifth, the black African republic seventh, France eighth, Austria ninth, Italy tenth, Germany eleventh, and the prophecy concludes, "the name of the rest is mud."

DECLARES WOMEN TO BLAME

Writer Asserts Selfishness of Her Sex—Frequently Is Responsible for Man Being a Failure.

A woman contributor to the Woman's Home Companion, in the course of an article on "The Country of Our Dreams," makes the following statements:

"Whenever there is a man who is a failure, look, and there you will generally find not far from him in his life some girl or a woman who was selfish. I could show you many such, who, giving no large service themselves, prevent serviceableness in the lives of the men they influenced; extravagant women, ambitious women, pretty women, senseless women, emotional and nervous women, who actually hinder men from giving the larger service."

"To put down personal selfishness, to go cheerfully about our tasks, to forget our own good in striving for the many, to deal justly and reverently with the men we know—you may call these humble ways, but they are far-reaching; and above all, they are a woman's ways of patriotism, such patriotism as shall at last mold for us, as I think neither votes for women nor any other agency can, quite so potently, the country of our dreams."
