

Schoolcraft Approves Plans for Physical Ed Building

Preliminary plans for a physical education plant have been approved by trustees of Schoolcraft College and the board authorized the architect, Eberle M. Smith Assoc., Detroit, to prepare working drawings.

Approval of the preliminary plans came after the board approved several plan modifications requested of the architect in the interests of economy.

Working drawings and specifications are scheduled to be ready for bidding early next year and a start of construction in April. Completion of the 87,800 square foot structure is scheduled for the fall of 1968.

Designed for an enrollment of 4,300 students, the building will enclose a 120 by 140 foot main gymnasium, a 98 by 104 foot auxiliary gym, a wrestling room, gymnasium area, a T-shaped pool, two classrooms for physical education instruction, six handball courts, locker rooms and other support areas.

As designed, the building will permit instruction programs in nine activity areas
