If you want ad is in this paper, people are reading it today!

In one car in the long line parked with engines running in front of the school, a certain car, pool driving mother is reading the Observer Want Ads. In the few peaceful moments before her noisy, active load jams into the car, she studies the little ads carefully and with an absorbed interest.

Later in the day, perhaps after dinner, she will make a phone call in response to one of the ads. She will be just one of thousands of people who respond to Observer Want Ads. These are people who read Want Ads in search of some particular need or want, and who respond immediately when they see the ad: they have been watching for.

If your ad is there to fulfill their need or solve their problem, your phone will be ringing. Placing your ad is a simple, convenient procedure. You can do it by phone, and just say "charge it" if the phone is in your name. The cost is low too, as little as \$4.05 per week on our low combination plan.
