Moyer Is Named Ad Agency Chief
 Election of Sheldon Moyer as president of D.P. Brothier & Company, Inc., was announced by Kenneth G. Manuel, who continues as chairman of the board and chief executive officer of the Detroit based national advertising agency.
 Moyer, executive vice president since October, 1965, and a vice president since he joined the agency 14 years ago, becomes the third president in the 34-year history of the agency following Marshall

JOHN SUTHERLAND, of Plymouth, Fisher Body-Willow Run plant manager, has been named chairman of the General Motors Ypsilanti Plant City Committee. The group is responsible for guiding and coordinating GM's community relations activities in the Ypsilanti area and is made up of management personnel from the three GM facilities at Willow Run.

NEW PRESIDENT of the Huron Valley chapter of the American Institute of Architects is Tivador Balogh of Plymouth.

EVANSTON, ILL. — A prominent traffic court jurist for 30 years, Judge Harry H. Porter, declares that too many drivers still fail to prepare for what he calls the "wild differences" between summer and winter driving.
 "Of course, everyone puts anti-freeze in his radiator. In northern states that's an absolute necessity. But too many motorists seem to think that's enough preparation for winter, and it isn't. In fact, it's only the beginning," Judge Porter continued.
 "SLEET, SNOW, icy pavements, fog and longer periods of darkness make a different ball game out of wintertime driving. They call for different rules.
 "First and foremost, traction and visibility call for additional provisions," said Judge Porter, who has long been a member of the National Safety Council's Committee on Winter Driving Hazards.
 "Winter traction depends on your tires. Make sure of the condition of your treads whether you intend to use regular tires, snow tires or studded tires this winter. In any case, for severe snow and ice conditions, be sure to have tire chains in the trunk that fit your tires.
 "FOR VISIBILITY you need to keep the windshield, as well as the side and rear windows, clear of snow and ice at all times, regardless of the weather.
 Check all lights including the directional signals to be sure they are operating. Keep the windshield clear with non-streaking wipers outside and a defroster that works inside.
 "Pay attention in advance to your battery, brakes, heater and defroster and exhaust system," Judge Porter continued.
 "Put a bucket of sand and a shovel in your trunk, also some flares and a tow chain.
 "All this sounds like a lot of bother. But I have presided at many accident cases where the people in trouble would have given anything for another chance to prepare properly for driving under winter conditions."
