

Tax Returns Must Contain W-2 Forms

Already 182 Federal tax returns have been filed without required W-2 withholding statements by Michigan taxpayers. A. M. Stoepfer, IRS District Director for Michigan, said that refund checks for these taxpayers will be delayed until

the W-2's can be obtained. Taxpayers should attach Copy B of the W-2 statement to their tax return, Stoepfer said. He added the employers are required to give employees copies of this statement, and they can furnish employees duplicates if

a W-2 is lost. When returns are received in IRS offices without a W-2 for all income on which income taxes have been withheld, a letter requesting the missing document must be sent to the taxpayer, he explained. Until the

W-2 is received, or an acceptable explanation of why it cannot be supplied, processing of the return cannot be completed. Another major reason for delay in issuing refunds is the failure of taxpayers to include their correct Social Security

number on the tax return, Stoepfer said. As of last week, Stoepfer reported, 3,409 refunds had been delayed in Michigan because of incorrect or missing Social Security numbers.
