## U.S. Must Reform To Save The Dollar

WASHINGTON -- Monetary authorities of the U.S. and six European nations are planning a counter-attack to save the dollar. European authorities contend, however, that any such plan would be short-range and that, in the long run, the U.S. will have to put its financial house in order by erasing its balance of payments deficit and controlling its own inflation.

WASHINGTON--The Federal Reserve Board raised the discount rate from 4.5 to 5 per cent in an effort to fight inflation and restore world confidence in the American dollar. The effect is to charge member banks more for any money they might borrow from the FRB and thus to dampen the supply of available money.

State Chairman Sander Levitt said the challenge is to make the campaign "constructive rather than divisive." Pennsylvania's liberal Sen. Joseph Clark welcomed a Kennedy entry but is still backing Johnson, as is Washington's Sen. Henry M. Jackson.

WASHINGTON -- If Congress will pass his proposed tax increase, President Johnson may bend to congressional pressure and agree to a cut of \$8 billion or \$9 billion in his budget. Negotiations with congressional appropriations leaders are at an early stage, and lawmakers won't commit themselves on whether they'll accept that concession.

NEW YORK -- The Democratic Establishment has mixed reactions to Sen. Robert F. Kennedy's decision to enter the presidential race. California Assembly Speaker Jesse M. Unruh is backing Kennedy, but Southern reaction was bitterly opposed to the brother of the late president. Illinois State Chairman James Ronan says his organization is "100 per cent" for Johnson, Michigan

NEW YORK -- Stewart R. Mott, the 30-year-old R.F.H. philanthropist, is still supporting Gov. Rockefeller for president. Mott said he will extend the deadline of March 15 which he set for announcing his still intends to contribute \$50,000 to the Rockefeller cause provided other persons put up \$100,000, and so far he has received pledges totaling \$85,000.

NEW YORK -- Sen. Robert F. Kennedy's entry into the Democratic presidential race may deeply divide anti-war college students. An Associated Press survey showed that group favors Sen. Eugene McCarthy about 2-1, but that many might switch to Kennedy because he seems to have a better chance to upset President Johnson.

## News Round Up

### Schoolcraft Plans Apprentice Program

Industrial apprentices who will enter the Related Instruction Program at Schoolcraft College in May will attend a special orientation session at the college on Friday evening, April 5.

Assisting at the session will be an official of one of the area industrial plants participating in the Schoolcraft R.I. program; a representative of the U. S. Department of Labor Bureau of Apprenticeship and Training, John P. Adams, dean of technical-vocational instruction at the college; an apprentice now enrolled in the R. I. program; and Leonard Chester, instructor in manufacturing technology at the college.

Apprenticeship Coordinator Ronald J. Monfette said the session is scheduled for 7 to 8:30 p.m., in Room T-300 in the Technical-Vocational Building. Parking is available in the north parking lot, near Seven Mile Road.

WASHINGTON -- Military sources speculate that President Johnson will send about 35,000 more men to Vietnam rather than the 206,000 that Gen. Westmoreland asked. There are now 510,000 men in Vietnam, and Johnson has authorized a level of 625,000 by next fall.

Topics to be covered during the session include an explanation of apprenticeship and how it functions, classification of trades, and types of programs offered in the Schoolcraft related instruction program.

WASHINGTON -- Defense Secretary Clark Clifford has declined to testify publicly before the Senate Foreign Relations Committee, which last week intensively grilled and roasted Secretary of State Dean Rusk on U.S. war policy. Two subordinates will appear in Clifford's place.

THE SESSION will also cover such subjects as how to become an apprentice, college referral service, draft deferment information, Veterans Administration benefits, and class scheduling suggestions.

NEW YORK -- South African singer Miriam Makeba, 35, announced last week that she will marry Black Power advocate Stokely Carmichael, 27.

Trade information literature will be distributed and a guided tour of the Technical-Vocational Building, is planned, Monfette said.

Company officials or prospective program enrollees can get additional details about the program by calling or writing Monfette at the college.
