

# Hemophilia Foundation Fund Drive Progressing

Good progress in a drive to raise \$20,000 to aid hemophiliacs in the Detroit area is reported by the Detroit Metropolitan Chapter of National Hemophilia Foundation.

The drive began May 13 and has involved some 3,000 volunteers in its door-to-door appeal.

William Brakeville, of Livonia, is aiding the drive as assistant general chairman and publicity director. He is an original member of the Detroit Chapter's Board of Trustees.

He is married and owns an

advertising agency and public relations firm in Livonia, Brakeville and Associates. A past candidate for the Michigan House of Representatives, Brakeville is president of the Buckingham Village Civic Association, a member of the Economic Club of Detroit and the Jaycees and public relations director for the Wayne County 19th District Republicans.

Hemophilia is an inherited disease in which the clotting of blood is abnormally delayed. This condition is due to a deficiency of essential clotting

agents.

Most commonly known as "the bleeders disease," hemophilia is a lifelong disorder. Its victims require countless blood transfusions, suffer endless hours of pain and face repeated hospitalization.

Worst of all, perhaps, is the fact that the hemophiliac must also face the fear of permanent crippling. Although there is no cure at the present time, the disease can be controlled by treatment—only, however, if the proper care facilities are made available.

Until recently, the 800 hemophiliacs, in the greater Detroit area, have received little help, little understanding, and almost a total lack of support in their fight against this tragic disease. The primary goal of this year's campaign is the establishment of an Out-Patient Clinic, operated in conjunction with Wayne State University's Board of Medicine. The clinic would provide treatment that is necessary to help control the disease.

In hopes of finding a lasting cure, funds will also be used for medical research.

HEMOPHILIA CAMPAIGN WORKERS — William Brakeville, of Livonia, left, confers on the drive to raise \$20,000 for hemophilia sufferers with Mrs. Marge Semiski, of Southfield, Mrs. Florence Lebowitz, of Oak Park and Frank Pilzga, of Detroit.

## Students Get \$479 Million

Social security benefits being paid to young people 18 to 22 who are still in school amount to more than the scholarships at all colleges and universities in the United States, Sam F. Test, Social Security District Manager, of the Detroit-Northwest Office said Monday.

"In the 1968-69 school year, the social security program will pay about \$479 million to approximately 495,000 students entitled to payments on the earnings record of a disabled, retired, or deceased parent," Test said.

This will be an average of more than \$1,000 to each eligible student. The school year that begins next fall will mark the fourth year of payments under a 1965 change in the law providing for the continued payment of social security child's benefits past the age of 18.

Until that change, Test said, a young beneficiary's payments stopped when he became 18 unless he was totally disabled.

"THERE IS NOTHING in the law that prevents the student from receiving his social

security benefits while he is still receiving assistance from a scholarship fund," Test noted. "Benefits may be paid during vacation periods. If a student works during the summer months or part time during the school year, and earns \$1,680 or less for the year, he can still collect all of his social security benefits."

"If his earnings go above \$1,680, he gives up some or all his benefits, depending upon the amount of his total earnings and how steadily he works."

Test said a 1967 change in the dependency requirements for the children of women workers made about 175,000 young persons eligible for payments. A large number of them are in the 18-22 age group and are attending school. They must apply for benefits before their payments can start.

Young people in the 18-22 age group whose mothers died after working under social security, or whose mothers are retired or disabled, should get in touch with their nearest social security office if they are not already receiving social security student's benefits.

## Fruit-Flavored Duo Of Frozen Desserts

Lemon Velvet and Frozen Tutti-Frutti, both made with P.E. Evaporated Milk, whipped so it triples in volume, are temptingly cool and tangy. They are quick and easy treasures for livening the dessert scene at your house.

### LEMON VELVET

- 3-oz. pkg. lemon gelatin
- 1 1/2 cups boiling water
- 1/2 cup P.E. Evaporated Milk (1 small can)
- 2 Tablesp. sugar
- 2 Tablesp. lemon juice
- 1/2 cup graham cracker crumbs
- 1 Tablesp. melted butter or margarine

Dissolve gelatin in boiling water in a 1 1/2-quart bowl. Chill until thick, but not firm. Chill evaporated milk in low tray until almost frozen at edges. Put ice-cold milk and sugar into cold small bowl of electric mixer (or 1 1/2-quart bowl). Using cold beaters, whip with electric mixer at high speed or with rotary beater until fluffy. Add lemon juice and whip until stiff. Stir chilled gelatin mixture slightly. Beat into whipped mixture at low speed, scraping sides of bowl often. Spoon into dessert dishes in alternate layers with a mixture of cracker crumbs and butter or margarine. Serves 4 to 6.

### FROZEN TUTTI FRUTTI

- 1/2 cup P.E. Evaporated Milk
- 1 cup mashed bananas
- 3-oz. can crushed pineapple, drained
- 1/2 cup cut-up pecans
- 1/4 cup sugar
- 1/4 cup cut-up maraschino cherries, drained
- 1 Tablesp. lemon juice

Chill evaporated milk in low tray until almost frozen at edges. Mix bananas, pineapple, pecans, sugar, cherries and lemon juice in a 1-quart bowl. Put ice-cold milk into cold small bowl of electric mixer (or 1 1/2-quart bowl). Using cold beaters, whip with electric mixer at high speed or with rotary hand beater until stiff. Fold in fruit mixture. Put into 1-quart ice tray. Freeze until firm, about 1 hour.

## Iodine Covers Up

Scratches in dark furniture usually stand out because they look white. They can be touched up quickly with ordinary iodine. Apply with the point of a toothpick or a fine, pointed brush.

Lighten the color if necessary by diluting the solution with small amounts of alcohol. Let dry thoroughly, then cover with a liberal application of furniture polish.
