DISPLAY FIRST
ISSUE OF FIRST
PHOTO MAGAZINE

A rare, unbound copy of issue No. 1 of the first photographic magazine in the world, "The Daguerrean Journal" has been placed on display at George Eastman House, the international photographic institute.

Published a hundred years ago at 23 Broadway, New York City, the number, dated November 1, 1850, declares itself "Devoted to the Daguerrean and Photogenic Art." Its editor and publisher was Samuel Dwight Humphrey of Canandaigua, New York.

The front cover of the journal, aside from its being the first photo magazine, is that it marked one of the first attempts in this country to publish the how-to-do facts about the new photographic process, according to Beaumont Newhall, curator of Eastman House.

The front cover of the journal carries an engraved likeness of Daguerre done by N. O. Carr from the original daguerreotype. It is the only illustration in the magazine's 32 pages, most of which are devoted to articles on the theory of photography, electro-magnetism, and related subjects.

A short article describes a new process of photography known as "chromotype." Writes the editor, "For copying botanical specimens or engravings nothing can be more beautiful."

An indication of the photographic reader's interest in other modern inventions of the day, as well as photography, lies in the magazine's technical articles.

One reports an improved watch: "At Geneva Switzerland, a watch has been invented which supercedes the use of a key. The hands are regulated, and the watch is wound up by simply touching a screw in the handle."

Outline Plan To Fight Dutch Elm Beetle

Elm bark beetles, carriers of the Dutch elm disease discovered in the Detroit area last August, are going to get a rough reception when they become active in the spring.

The conservation department reports several government and college agencies have outlined plans to combat the spread of the disease. Most beetle control work will be confined to high value city and park trees near centers of disease infection. Complete control of the beetle in rural woodlots is financially impractical.

The Dutch elm disease already is known to have attacked at least 100 trees in the Detroit-Windsor area. Infected trees are being removed and destroyed.

A more complete survey to determine the infected area is to be made by the state department of agriculture. Foresters point out that the disease may currently be confined to the Detroit area in Michigan but the carrier definitely is known to be present in a half dozen surrounding counties as well.

Church Services

(Continued from Page One)

Program will be held Christmas Eve at 7:15 p.m. Mr. Elliot Tyler and all the teachers in the school will participate in bringing the story of the Nativity in pageantry, verse and song, to the congregation. On Christmas night, 7:30 p.m., a candlelight service of choir music and Christmas carols will be held.

During the Christmas week, new equipment installed in the church tower will play carols.

The annual Sunday School program will be given Friday night at the Farmington Baptist Church. The program will be held at 8 p.m. Sunday night at the church, the combined Senior and Youth Choirs will present a program of Christmas music. The cantata will begin at 7:30 and will be followed by a brief message from Dr. Ernest Campbell of the Detroit Bible Institute.

Sunday morning's regular church service at the Farmington Baptist Church will be held at 10 a.m., with Dr. Ernest Campbell giving the sermon. Dr. Campbell is taking the place of Rev. Fred Fisher, who is now in Florida.

At the Farmington Universalist Church, at Warner and Thomas Streets, the guest speaker Sunday morning will be Dr. Katherine M. Chamberlain, professor of physics at Wayne University.

Dr. Chamberlain, who in a year's work at the Cavendish Laboratory, England's famed atomic research center, was in contact with Mme. Marie Curie, the co-discoverer of radium. Her topic will be "Peace on Earth, Good Will Toward Men."

At the St. Paul's Lutheran Church, Sunday School services will be held Sunday at 10 a.m. A sermonette by the pastor, Rev. W. Rutkowski, and a program entitled "As Shepherds Watched Their Flocks By Night" will be presented. At 6 p.m. Sunday, the Christian Day School children's service will be held.

The "Christmas Story Foretold and Fulfilled" will be the program, and Rev. Rutkowski will give a sermonette. Grades one through three will be under the direction of Mr. Wilbert Rump, and grades four to eight under the direction of Mr. Waldemar Graf, principal. Christmas carols will be led by the Junior Choir.

On Christmas Day at St. Paul's, the service will be held at 10 a.m., with selections by the Senior Choir. The sermon will be based on the Christmas story from Luke 2:1-14.

Solemn High Mass at midnight of Christmas Eve will be held at Our Lady of Sorrows Church in Farmington, preceded by a half hour of carol singing by the boys' choir. Four Masses will be held on Christmas Day, at 7:00 a.m., 8:30 a.m., 10:00 a.m. and 11:30 a.m.

Christmas activities at Clarenceville Methodist Church will start Friday night when the annual Christmas program will be held. Mrs. William Lancaster's expression studio will recite at this service. At 11 p.m. Rev. Pearson of Plymouth, assistant evangelist, will preach and a brief message by the pastor.

The Farmington Assembly of God will hold three services Sunday, December 24. At 11 a.m. Rev. W. D. Webster of Dearborn will preach, and at 7:30 p.m. the annual Christmas program will be held. Mrs. William Lancaster's expression studio will recite at this service. At 11 p.m. Rev. Pearson of Plymouth, assistant evangelist, will preach and a brief message by the pastor.

Arnie Hartman, TV and screen star, will appear at Southfield Presbyterian Church Friday night at 7:30 p.m. Mr. Hartman will entertain with music and story, and will be joined by children who will recite. On Sunday evening, December 24, there will be a Christmas Eve candlelight concert featuring Robert Taylor, mass soloist, Joyce Woodcock, soprano; Mrs. Paul Whaley, violin; Betty Wallace, pianist; and the Youth Choirs of the church. The service will close at 9 p.m., when the Ambassador and Crusader Youth clubs will go carolling in the church bus.

NEW ADULT
CLASSES PLANNED
AT CLARENCEVILLE

Plans are now underway at Clarenceville for the formation of new adult sewing class after the holidays, Louis Schmidt, superintendent of the Clarenceville schools, announced Tuesday.

A two section class has just been completed. The classes were conducted on an eight week basis with a total of approximately 30 adults in two sections. Because of the demand, the new sewing classes will be started early in January.

Schmidt also stated that eight or nine more adults are needed for the formation of a household mechanics and crafts class. At least 15 persons are needed before a class can be formed and instruction started. The District has a qualified instructor to handle the class but a larger enrollment is necessary.

Persons interested in such a class is requested to contact the superintendent's office in the Clarenceville High School.

The men's physical education program, under the sponsorship of the Clarenceville Reorganization Commission, is scheduled to begin January 4.

NAME MEMBERS OF
1951 GIRL SCOUT
DISTRICT COMMITTEE

New members of the Farmington District Committee for the 1951 Girl Scout year have been named. It was announced this week. The new committee met Thursday at the home of Mrs. J. Boyce.

Chairman of the committee for 1951 is Mrs. J. Boyce. Vice chairman is Mrs. J. Lillie, and secretary is Mrs. J. Ohman. Chairman of standing committees are: Finance, Mrs. W. Brown; organization, Mrs. H. Farmer; training, J. Mack; staff and office, Mrs. Steele Cox, Jr.; public relations, Mrs. A. R. Wright; program, Mrs. F. Durbin; day camp, Mrs. G. Sherlock; troop camp, Mrs. W. Lang; established camp, Mrs. E. Hallcock.

Members-at-large of the committee are Mrs. F. Henry, Mrs. A. Grant, Mrs. P. Fisher and Mrs. P. E. Harrison. The membership nominating committee is composed of Mrs. P. Schlotterbeck, Mrs. N. N. Mihay, Mrs. U. Layton, Mrs. D. Kinsman, and Mrs. F. E. Harrison.

URANIUM RUSH
FIZZLES IN U. P.;
NONE MINED

As 1950 draws to a close — a year which saw some of the excitement of a junior-size gold rush attending the prospecting for uranium — not a pound of the atomic mineral has been mined.

The conservation department has received a total of 15 applications to prospect for uranium ore on state land, which prompted field investigation. Geological examination has resulted in the cancellation of nine lease requests and four other prospective sites still are to be checked in Marquette, Dickinson and Gogebish counties. Only two active leases exist, one covering the original 80-acre discovery area in Baraga county and the other for a 180-acre tract in Dickinson county.

While the department geologists are just as interested in finding uranium ore in the state as anyone, they cautioned at the time of the first discovery that it only meant that an area in Baraga county had been located where further exploration for mineable quantities of the ore was warranted.

Yet with the uranium fever prevailing, the department received many letters, some with rock samples, from would-be prospectors. In spite of the worthlessness of one set of rock samples, one applicant insisted the department take his \$25 application fee and check his "finds." The answer was the same as that sent out to many first inquirers.

The nation's 6,000,000 trucks are vital supply lines keeping raw materials and components flowing to industry, and the industry's products flowing to market.

Report More Small Game,
Fewer Deer Hunters In '50

More small game hunters and fewer deer hunters this year is indicated in latest license agent reports to the conservation department.

Sales reported to December 1 reveal 508,186 small game licenses issued, or over two per cent more than the 499,587 of record last year at this time. "Non-resident" small game licenses totaled 2,278 or 44

per cent over the 2,274 issued before.

That the state may have had a smaller deer hunting army this fall is reflected in agent returns that far which show about 10 per cent fewer licenses written. Sales to date total 67,094 as against 73,374 in the same period last year. Non-resident licenses are down over 15 per cent with 775 purchased as compared to 951 before.

Trapping licenses are off last year's pace 12 per cent with 1,053 reported while 1,197 were recorded up to December 1, 1949.

Resident fishing license sales still are off nearly two per cent. Agents report 763,487 issued as against 775,957 before. Non-residents have bought 125,413 or nearly 11 per cent fewer temporary angling licenses. Annual non-resident fishing permits are up more than five per cent with 123,324 as compared to 118,051 before.

Trout stamps issued total 160,164 or three per cent less than the 165,196 a year ago.

SEPTEMBER'S SMOG MILD
COMPARED WITH OLD RECORD

Air purification engineers were particularly interested in the phenomenon which carried a 100 mile blanket of smoke over a wide area of the United States during the Canadian forest fire in September. "The smog was mild, however, compared with the pall resulting from eruption of a volcano in the Dutch East Indies in 1933. At that time, a fine ash was blown almost around the world."
