The Thing: Alias Mid-Year Exams

When it comes this time every year, what do our fellow students think about — "Spring? True Love? Picnics? Bugs? No, they think about swiping the carbon copy of their mid-year exams from the teacher's desk. But really, there is a much easier way — go to the typing room and get a fresh copy as it comes out of the ditto machine, or on the other hand you could open your books and study for change. (But, of course, don't let the teacher catch you.)

But coming down to the serious point — why not take your books home and study — you don't have to miss your favorite program. And don't let the fact worry you that the next day in History class when asked who defeated the French at Waterloo, you come up with the bright answer "Slippery Sam — Private Bye."

You've heard of a "Heavy Foot"? Well, many students who drive cars claim that it is caused from over-study. They explained the situation as thus: "Our study causes the brain to secrete a substance called acetone which gets in the toes." But most of the teachers aren't inclined to believe that "study" is that harmful. But whether it is or not will be decided after report cards are issued and the death-march to the washroom is completed. P. N.

Reserves Lose Third Straight

The Clarencville reserves lost their third straight game of the season to the South Lyon team took the lead from the start of the game and maintained a safe margin until the final whistle. High point man for the reserves was Roy Zanits with 5 points.

Debate Season Is Concluded

On January 16, Clarencville had its last debate of the season. The affirmative team, consisting of Jane Rutilla and Audrey Kennard, debated the Milford negative team and won. The negative team took on Walled Lake and lost. Of the negative team for Clarencville were Annie Allan and Bob Garvin. Timekeepers and chairmen have been Meribah Meyer, Nancy McCarville, Jean Cashman, and Bill Ac-ton. The sponsor of the debate league was Miss Mary Ann Richardson.

Clarencville this year debated in two leagues instead of the usual one. They were in the Interlakes League, which included Holly, Northville, Farmington, Milford, Walled Lake, and Clarencville, and in the State League sponsored by the University of Michigan, which included Birmingham, Troy, Inkster, St. Clair Shores, Romulus and Clarencville. Senior Starlight

For our "girl of the week" we have Arlene Diddams. Arlene is a pretty girl with dark brown hair and dark eyes. Arlene swears she is 5'7" (but we don't believe her). Arlene's favorite color is blue, which she does justice to. Her favorite pastime is "just being with Ralph" while her favorite hobby is eating pork chops (with trimmings).

She is known for saying what she thinks, when she thinks it, and not caring what other people think. Her ambition is to graduate, not because she will leave these beloved halls, but only because it will bring her closer to hearing wedding bells. We wish her luck in graduating. She'll probably need it. (Only kidding.)

For the man (?) of this column we bring you Bob Rousseaux. Bob is 5'10" with blue eyes and blonde hair. Bob's favorite color is blue and favorite pastime — food. In the past all the Rousseauxs have been athletes, so Bob decided to keep up the family tradition. Bob has been a varsity man since his sophomore year when he first went out for baseball, football and basketball. Bob would disclose no information on his favorite girl, as much as we tried to pry it out of him. His favorite hobby is baseball while his favorite (period) is — you guessed it — sports. His pet peeve? Boys who don't go out for sports. A. A.

In war time, as in peace, bituminous coal continues to be the chief source of energy in America.

A WORD ABOUT OUR
prescription
prices

There is no guesswork when we figure the price of your prescription. Its cost is based on the value of the ingredients used, plus a nominal professional compounding fee.

This uniform pricing policy assures you of fair prices — prices that will average no more than you might pay elsewhere.

For safe, sure, pure ingredients — compounded with painstaking accuracy and delivered to you at lowest possible prices — always rely on

ALUMNI CHATTER

Well, kids, we haven't got much news for you this week, but we'll make up for it next week. We'll at least try.

The stork brought a 7 pound 2 ounce baby boy to Leveille (Eoling) Thompson last week. They named the baby Curtis Robert. Both mama and baby are doing fine. Donna McClure is working as a secretary at Darin and Armstrong Construction Company. She likes her job pretty well, we've been told.

Earl Jensen left on the 11th for the Marines, while the girl he is engaged to sits home patiently writing letters to him. With all these fellows going into service, what is there for we girls to do. Shall we join the Waves or WAAF?

With that thought in mind, we'll leave you for now. S. S.

New Carillon Bells Installed at MSC

Michigan State College has installed 14 new soprano bells in Beaumont Tower carillon. The latest addition brings to 37 the total bells in the tower.

Beaumont Tower was given to MSC by the late John W. Beaumont, an alumnus and widely-known Detroit lawyer. He died in 1941.
