A. L. ROSSES MARK FIFTIETH WEDDING ANNIVERSARY

Mr. and Mrs. A. L. Ross of 23915 Farmington Road, who have resided in Farmington for 27 years, will observe their golden wedding anniversary on April 3.

Lola G. Albee and Agnes L. Ross were married 50 years ago in Hamilton, New York. In 1915 they moved with their four daughters to Detroit, and in 1923 moved to Farmington, where Mr. Ross operated the bakery for 22 years.

During the Christmas holidays their daughters honored Mr. and Mrs. Ross at a dinner party at Rotunda Inn. Those present were their daughters and sons-in-law, seven grandchildren and two great-grandchildren.

On Sunday, April 1, the immediate family will gather at the Ross home for an anniversary dinner.

Four Generations Attend W.C.T.U. Meeting

Four generations of the Leonard family attended the regular monthly meeting of the Ella Irish Women's Christian Temperance Union, held March 22 at the home of Mrs. Helen LeDoux on Cass Avenue.

Mrs. Mable Leonard, chairman of the program committee, presented a program on the subject of "Being Consistently Scientific." Mrs. Mary Minor chose as topic for the devotions "The Lord's Supper," based on the scripture found in Luke 22:14-25. She spoke on the "Oneness of Humanity and the Desire for Companionship."

Donations were made to the Little Stevens Fund and to the Frances Willard Fund.

Plans were made to attend the W.C.T.U. Star Federation Institute to be held in the Baptist Church at Walled Lake on March 27. A "white elephant" sale will be held at the April meeting.

Mrs. Margaret Mahoney of Ten Mile Road is visiting in Detroit this week.

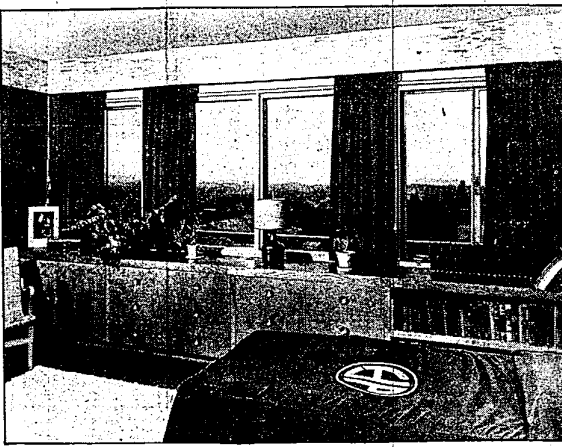

Built-Ins Can Solve Your Storage Space Problems

If home space were sold by the bag, most of us would rush right down and purchase a couple of dollars' worth every day. Unfortunately, extra floor area is not come by so easily. If high rentals or building costs are preventing your acquiring it in the usual fashion—by moving to a larger apartment or adding a spare room onto your home—then you must resort to planning to attain those precious inches.

One solution, if your husband is a handyman or your carpenter reasonable in his prices, is built-in furniture. You can utilize one wall for all the shelf and bureau space you need, leaving the rest of the room uncluttered. An additional advantage is planned storage. You can make every inch worth by planning beforehand just what you wish to store in each spot.

For each room, it's usually a good idea to include drawer space, open shelves and enclosed shelves. The framework of this built-in furniture should be constructed of sturdy wood. For cabinet doors and drawer fronts, plywood is a good choice.

If you are not yet permanently settled, you may prefer having these wall pieces made up into separate, easy-to-move units. Make certain, however, that they match in height and width in order to give a feeling of unity when they're lined up together.

Built-in rows of drawers, cabinets and bookcases give this master-bedroom plenty of extra storage space and a handy counter above the windows. The same type of built-in is ideal for youngsters, too. The built-in and valance above it are made of birch plywood.

JUNIOR CLASS TO GIVE "YOU CAN'T TAKE IT WITH YOU"

Experimenting with a philosophy of life highlights the efforts of the Junior Play cast of Farmington High School as they rehearse daily on their stage in the Baptist Church at Walled Lake on March 27. The play, written by Hart and Kaufman and published by the Dramatists Play Service, will be put on in the Farmington High School auditorium on Saturday, April 14, at 8:15 p.m.

"You Can't Take It With You" had a highly successful run on Broadway and in other dramatic centers in the nation as well as the movies. It is to be brought to Farmington for the first time on April 14. Dealing with a New York family, the production accentuates the philosophy that one should enjoy life on his own terms and not try to build up treasures as you can't take the treasures with you come life's end. As a result the family in question enjoys perfect freedom in the development of individual hobbies which run the gamut from snake charming to experimenting with high explosives.

Mrs. Gerry Brock, speech instructor, directs the play.
