## EDITORIAL

### COMING ELECTION

In a previous article in this paper the coming election was discussed, but it seems many of the students don't know what it's all about. This election is being held to elect a student body.

Do you want to walk to school next year? Do you want our halls more crowded than they are? Or do you, by chance, want our school improved? If you do it's your duty to get out and have your parents and neighbors vote for "five mills for five years."

To you this may sound like a great deal of money, but actually the cost on the average will be one and two-fifths cents per day per thousand dollar valuation. This means if your house is valued at \$2,000.00 the cost would be less than three cents a day. In this much for "bus transportation, good teachers and the present services and possibly new ones."

We don't think so, do you? So vote "YES" on April 9. A. A.
