

**Farmington Marine Promoted To Corporal**

Victor A. R. Stevens, USMC, of 1947 St. Francis Street, has been promoted to corporal while serving at the Naval Proving Grounds, Dahlgren, Virginia.

Stevens, son of Mr. and Mrs. Herbert W. Stevens, returned from Korea last December where he participated in the Inchon-Secut and the Wonsan - Hungnam - Chonsin operations.

Stevens, who entered the Marine Corps June 2, 1949, attended Farmington High School and was employed at the Maxwell J. Smith Drug Company in Farmington.

**Lee Tyler Pledges Literary Society**

Lee Tyler, freshman at Hidelberg College, is one of the 25 new members of the Ecclastic Literary Society, one of the four men's literary societies on campus.

Although the literary aspect is stressed in each one of them, these societies contribute mainly to the social aspect of the Tiffin, Ohio, campus. This spring 184 students pledged to one of the seven societies.

Tyler is president of his class. He is a premedical student, and the son of Mr. and Mrs. Elliot B. Tyler of 2305 Violet Street.

**LETTERS TO THE EDITOR**

Letters submitted to the Editor for publication in the Letters to the Editor column are those of the writer and not of the editor. The policies of this newspaper are those of the Farmington Enterprise.

The Farmington Enterprise  
Farmington, Michigan  
Gentlemen:

Enclosed herewith please find my check for \$4.00 to cover renewal subscription for 2 additional years.

I enjoy reading the Enterprise, but do not always agree with your editorials and one that I most certainly do not agree with is "Down in Black and White", in the April 10, 1951 issue. This editorial states, among other things, that in order to get more tax money for industrial purposes, possibly small industry should be encouraged. However, it is a well established fact that whenever industry moves in, more families move in, keeping the schools just as overcrowded and possibly more so. What has happened to Livonia since the Ford factory?

**Michigan Mirror**

(Continued from Page Two)  
ing costs still higher. Skilled workers also will be needed — this means another influx of labor to Michigan.

Some 318,000 hunters harvested nearly 1,797,000 cottontails during the 1950-51 season. Previous season saw 351,000 persons take 1,970,000.

Conservation department fishery crews have planted 250,000 legal size trout for the benefit of trout enthusiasts. The department doesn't forget Michigan's tourist industry is rated second only to the automobile business.

The highway department plans a \$10,000,000 heavy-duty highway between Detroit and the Ohio line. With Telegraph Road (heaviest traveled truck highway in the U.S.) disintegrating, the new road will serve as a defense highway.

Michigan traffic has taken 14,111 lives in the last ten years. The Korean war (or policing action) has killed 10,080.

We were not surprised that the wife won a slogan contest. But what did amaze us was that she said anything in 25 words or less.

No, Minerva, a naturalist isn't a guy who rolls nothing but sevens.

A woman's physical charm are their best weapons in the battle of love, then they will never be charged with carrying concealed weapons.

Chances are he's a doctor if he still has his tonsils and appendix.

If hair restorers are so good, it looks like the druggists would give away for the comb and brush business that would develop.

Some of the imported cheese we have seen lately smells like it was deported.

Farm woodlands that are too small to be of commercial value can be an excellent source of wood products that you need at home.

**No Lime Needed On City Lawns**

Truckers who haul white lawn fertilizer around town are often offering refuse lime or marl which is also a form of lime, advises James Tyson, Michigan State College soil scientist.

While this material may be very effective on farms, it is usually wasted when applied to lawns, he reports.

**St. Martin's Church Plans Activities**

Half of the 100 tickets for St. Martin's Episcopal Church's mother and daughter banquet have already been sold. The banquet, being given by the Women's Auxiliary, will be held on Tuesday, May 15, at 6:30 p.m.

The remainder of the tickets are being sold by members of the Auxiliary and the church secretary.

**Button, button  
and the call  
goes through**

**P**ush buttons simplify a lot of jobs in this electric age:

Ten little push buttons now help Long Distance telephone operators handle more calls more quickly.

A customer gives the operator the out-of-town number. She swiftly presses several buttons, which correspond to the letters and numbers on a telephone dial, and the call goes straight through to the distant telephone.

That's the way it works in Detroit and a number of cities throughout the country. In many other places, including more than a dozen Michigan exchanges, telephone operators speed Long Distance calls by dialing direct to many points with regular dials.

Named "operator toll dialing," this new development is already used on 1½ million Long Distance calls daily and is steadily being expanded. Every minute it saves is important right now as the nation turns to the telephone to hurry our defenses.

To help speed your Long Distance call, please give the operator the out-of-town telephone number.

Telephone lines are busy with national defense

ALWAYS BE CAREFUL DRIVING

**The difference goes more than Skin-Deep**

**N**obody wonders what you're driving when you roll by in this one.

In the 1951 line-up, its brand-new front-end styling stands out with a beauty all its own.

You're the proud owner of a Buick and the whole world knows it.

But you—at the wheel—enjoy a long list of differences that go far deeper than looks.

The ride is different—level and true. You sit the road with special assurance—because Buick's torque-tube drive keeps rear wheels firmly

aligned—soft coil springs on all four wheels soak up the bumps and bobbles—honest weight keeps you on a steady keel.

The power is different—eager and sure. Buick's high-compression Fireball engine does wonders with fuel—and no matter what you demand in emergency, there's horsepower to spare.

Handling is different—this car seems to steer itself on straightaway or curve—and swings lightly into parking spots inches

shorter than you'd think you need. Capping it all, there's the silken versatility of Dynaflow Drive,\* that takes all the tenseness out of driving—responds to your slightest wish with a surging swoop of power.

No doubt about it, what you get in

a Buick is far more than just a new car—it's a whole new experience in getting pleasurable from here to there.

So why not explore this difference? Come, take a Buick over and find out how very much satisfaction smart money can buy.

Equipment, accessories, trim and models are subject to change without notice.

**Smart Buick's  
Buick**

**No other car provides all this:**

**DYNAFLOW DRIVE\* • FIREBALL POWER**

**4-WHEEL COIL SPRINGS • DUAL VENTILATION**

**PUSH-BAR FRONTEND • TORQUE-TUBE DRIVE**

**WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING**

**BODY BY FISHER**

**\*Standard on ROADMASTER, optional on extra cost car or other Series.**
