## Junior Class Selects Rings

The junior class is really on the ball this year. They have had three bake sales this year. They have also selected their class rings. We hear they are pretty swell. The juniors are planning on a big turn-out for their J-Shop this year. Roston Clark and his orchestra are simply dreamy for dancing.

## Marilyn Winters This Week's Senior Hi-Lite

A football fan! She sounds good already! Yes, our Senior Hi-Lite loves football, basketball and senior boys. Her name is Marilyn Winters and she's 17 years old. Her hobby is collecting souvenirs while listening to her favorite song "I'll Be With You". I guess her main ambition is to graduate like any normal senior girl and it won't be long now.

## Senior Pictures Create Stir

If you happen to see a boy going down the hall all dressed up, you would probably fall over. This only happens once a year when it does everyone stares in amazement. You begin to wonder — has there been a funeral or maybe a wedding. Curiosity gets the best of you. Then someone just happens to run into you. He says, "Excuse me." But before he can get away you ask in a bewildered voice, "Why the glad rags?"

He answers, drawing himself up to full size, "Didn't you know the seniors are having their pictures taken?" Then he walks away proudly. I wonder is he was a senior? Do you think so?

Yes, he was a senior. The seniors had their pictures taken Monday, October 22, for the 1952 yearbook by Powell Studios. M. C.

## Describes Fears-With Coming Of Halloween

The night is cold and the wind is blowing. There is a full moon and the weather is misty. You are seated alone, yes alone, in your house.

Everything is quiet but then you hear a screech! You look out the window and there it is. A big black witch! You are terribly frightened so you decide to run and hide. But where? On second thought you decide to call your parents, but they aren't home! Oh, what can you do?

You are amazed as you look at the calendar and notice it is October 31. Shame on you. Didn't you know it was Halloween?

## ROLLING DOWN THE RIVER

By Bob Kettler

People have dropped around the garage at various times and said, "man, oh man, since you've been writing that column, you've certainly been a lyrical character when you talk Studebaker. Do you really mean everything you say about the cars?" So it comes to mind that seven or eight years ago, newspapers printed this story about Frank Szymanski, who was pretty much of a football player for Notre Dame. One day Frank was called to court to testify in a civil suit and the judge asked him if he was a football player.

"Yes, your honor."

"What position?"

"Center, your honor."

"How good a center?" And knowing Frank to be modest, and knowing that at all times, you've Frank Leahy was much surprised to hear Szymanski answer, "Sir, I'm the best center Notre Dame ever had."

Later the coach asked him how come he made such a statement. Frank blushed, "I hated to do it coach, but after all, I was under oath."

Now while we're not exactly under oath, we feel we should be honest, no matter what the occasion. We're not being lyrical when we talk of the new Studebaker with its powerful V-8 engine, we're just telling the truth. While we're on the subject, let's repeat: for amazing power, absolute comfort and astonishing economy, you can't beat the Studebaker. Come in for a demonstration.

Vacation stories have been a bit slow in reaching our ears, because once these customers of ours take off in their new Studebakers all they want to do is keep driving. Too much car, we suppose, as we'd like to get in a service charge now and then. However, one tourist dropped around and told us of talking to a southern mother of ten children with another due in the not too distant future. "Sure tired of having babies," the mother complained, "but it's the only way I know to keep from spoiling the youngest."

You know, it's getting along towards that time of year you have your car winterized or else. We want to keep you happy and not have to call around some cold morning to thaw out the buggy. We've got all sorts of things here, all designed to give you a protected, easy starting car, no matter what the thermometer reads. See you soon, we hope, and why not get a tune-up too?

This first come, first served hit a new high in a local hospital the other day. Group of expectant fathers were pacing the floor, when a nurse came out and saw one of them. He was now a proud father of a son.

"Hey," yelled another prospective father, "how come he gets all this service when I was here first?"
