ing unemployment in industrial areas could make public assistance more in cost. A deficit of some \$1,000,000 for public assistance grants is in sight for the current fiscal year. . . .

Meanwhile Sen. Blair Moody (D-Mich.) says he will attempt to boost jobless benefits for workers killed by conversion to defense production. actually speed the final armistice. However, there is no question but that Ridgway's proposal represents a definite and important change of policy.

Here are the background factors which they are considering:

When we went into the truce talks, the biggest obstacle seemed to be drawing a truce line. We agreed—in fact, urged — that the truce line be settled first. This has been the whole question of the past several weeks. We even drew our proposed truce line on a map so the Communists could have no doubts about it. After months of haggling, the Communists finally came around to our terms. Their last proposal was so close to our demands that there was nothing left to haggle over. At first Washington couldn't understand why Ridgway didn't snap it up, but sent his negotiators back instead with a flat rejection and a warning that the truce line couldn't be drawn until the other terms of the armistice were settled.
