

THE VOCATIONAL-technical addition to Schoolcraft College's Applied Science Building is in the beginning stages as this view from atop a neighboring building shows. The college was recently notified that it will get some help from the state in constructing the \$1.1 million 23,000 square foot addition.

Engineering Degree Comes After 31 Years

Among the General Motors Institute graduates receiving degrees at ceremonies in IMA auditorium in Flint this Friday will be a group of GM "oldtimers."

Included in this group, whose members probably could write the textbooks now being used at the institute, is George Hudson, 706 Burroughs in Plymouth.

Hudson received a certificate when he graduated from GM in 1941. In those days it was a four-year school and was not accredited.

The years after graduation followed the pattern of many young men of that era married in '42, joined Navy in '44, back with GM after the war. Now, 31 years later, with four children (a daughter four hours away from a masters degree), and three grand children, Hudson will receive his bachelors degree in industrial engineering.

He is one of seven from the Hydramatic Plant in Ypsilanti who will be donning caps and gowns for the July 28 ceremonies. He is a general foreman at the plant, presently on a special assignment at the GM Tech Center.

"It gives me a tremendous amount of personal satisfaction," Hudson said when asked how he felt about his degree. Then he went on to explain how it all came about.

"After World War II GMU became accredited and a fifth

"I haven't got it here or I'd let you see it," Hudson said. He had sent it to his father in Massachusetts because he knew he'd be interested in reading it.

A belated invitation was on its way to his parents - purposefully belated so that they would have to fly - not drive - if they decide to come to their son's graduation.

Both George and his wife, Betty, were grinning over this deliberate procrastination.

"You know what they did?" Betty said. "They drove 2,000 miles to view the eclipse a couple of weeks ago. All the way to Prince Edward Island. He's 85 years old now and we worry about him driving."

With parents like those senior Hudsons, it must be difficult to realize 31 years have passed since he left General Motors Institute.

The directions on the timetable for the ceremonies take one back too. "Time to pick up cap and gown... time to get name tag... time to register etc. etc. etc. time to turn in cap and gown."

And - "GMI has paid for the tassels so you may remove and keep it."

Congratulations.

Popular Flea Market Back

The popular Blum & Kirsch Flea Market will be held at Wonderland Center on Saturday, July 28.

This flea market offers browsers and shoppers a fine selection of both rare and unusual antique and distinctive hand-crafted items. It will be located throughout Wonderland Center's mall.

Aqua Star Pool is the safe, the strong, most beautiful and the most complete swimming pool constructed in Michigan

STAIR GATE CAN BE LOCKED TO SAFEGUARD CHILDREN
POOL CAN BE DISMANTLED AND MOVED TO A NEW LOCATION
ONE FILLING STAYS CLEAR AND PURE INDEFINITELY

- Choice of carpet colors on 8' patio and walk-around-deck for sunbathing, cool feet and non-slip safety, standard on all of our pools.
- This pool completely installed, including electrical wiring.
- Never requires painting, baked enamel on aluminum sides.
- All pure redwood fence, pre-stained and sealed.
- Manufactured in Michigan for Michigan climate. Swim safe for health's sake.

Completely installed, all you do is supply the water.
All necessary accessories included. * Also available in do-it-yourself kit form.

- 20 gauge vinyl liner.
- Pool covered with steel top and bottom.
- 3" thick water base sides.
- Min. 8' patio standard all sizes.
- 4" alum. white enamel coping.
- Sand filter.
- Stainless steel in-water ladder.
- Vacuum kit.
- Test kit.
- Hand held skimmer and automatic 2-way skimmer.
- Recirculating main drain in bottom of deepest part.
- Fiberglass tank, 10 yb-manufacturer guarantee.

CONVENIENT FAST INSTALLATION. BANK TERMS AVAILABLE

2 Colleges Hard-Rock Tunneling Records Set Cut Rates For Tuition

Six probable world records in hard-rock tunneling are credited to a Livonia-based contracting joint venture by an internationally-circulated British trade journal.

The record-breaking tunneling was performed by Greenfield & Associates in construction of the Detroit Metropolitan Water Tunnel.

Greenfield & Associates, headed by Greenfield Construction Company, Inc., of Livonia, was recognized in a recent issue of The Mining Journal Limited for what is believed to be record-breaking performance in: removing the largest volume of hard rock in a given time; the highest boring rate ever achieved with the 175-ton tunneling machine manufactured by Lawrence Division of Ingersoll-Rand; and in terms of tunneling progress - the best 10-hour shift, best 20-hour day, best five-day week and best month.

"Boring of the six-mile Port Huron tunnel, it is estimated, would have taken at least 50 per cent more time to complete with conventional techniques," the British mining publication said.

The tunneling machine used by Greenfield & Associates at Port Huron is now being used by another Greenfield-

LCC Fines Show Hike

LANSING

Fines for violations of state liquor laws were up 26 per cent during the first six months of 1972 compared to the same period last year, the Michigan Commerce Department Liquor Control Commission reported today.

The commission said it fined establishments licensed to sell liquor a total of \$93,474 between Jan. 1 and June 30 compared to \$67,907 during the first six months of 1971.

License revocations and suspensions were down, however.

Local Man Is Promoted

JACKSON LOWERED - in district tuition \$2 per credit to \$14 for residents and \$22 for non-residents.

Northwestern lowered tuition from \$11.75 to \$8 for in-district students and to \$11 for students from seven neighboring counties and \$17 for all other students.

Tuition rates at Schoolcraft were raised 10 per cent this year from \$10 to \$11 per credit for in-district students, \$20 to \$22 for out-of-district and \$30 to \$33 for out-of-state.

Emilio A. Garza, 27601 Garden City, was promoted to assistant manager of manufacturing engineering for the National Can Corp. in Livonia.

A Garden City resident since 1968, Garza was plant manager of the corporation before joining the engineering department in 1970. The corporation has 50 plants throughout the country.

Garza will maintain his Garden City residence while commuting to the executive offices in Chicago, Ill.
