

# Apprentice Information Day Set

An informational program entitled "What's New in Apprenticeship" has been scheduled by Schoolcraft College for 6 p.m. on Friday, Dec. 15.

The hour-long program will be conducted by Ronald J. Monfette, director of apprenticeship and related instruction for industry. It is for employers, employees, and returning veterans who have an interest in the industrial apprenticeship program offered by the college.

Monfette has invited local high school guidance counselors to attend. They have also been encouraged to identify persons among recent graduates from their schools who would be good candidates for both employment opportunities and for apprenticeship training.

At the present time, Schoolcraft has about 350 apprentices enrolled in its related instruction program. The college serves more than 300 design, manufacturing and other service oriented companies, 130 of which are located within the college district. Related instruction is offered in 23 different occupational trades.

The "What's New" program will be held in the Applied Science Building on campus. Convenient parking is available in the north parking lot, off Haggerty south of Seven Mile.

# New Blood Office For Red Cross

Blood donors have a new Observerland office of the Red Cross in addition to one on Coolidge Rd. in Berkley.

The new site is 29236 Ford Rd., Garden City. Hours are Monday, Wednesday and Friday from 10 to 4; Tuesday and Thursday from 3 to 9; and Saturday from 9 to 1.

In the spirit of the holidays, the Red Cross blood program has thought of an answer for the yuletide question, "What can I give my family for Christmas?"

The program now offers blood donors the "family plan holiday gift certificate."

"A single unit of blood donated this season will enroll your family or friends into the Red Cross family plan," said Donald Stangel, director of donor recruitment and education.

The gift certificate concept was developed for two reasons: First, to make families aware that all their blood needs will be met, by the Red Cross, should accident or illness strike; second, to recruit additional volunteer donors in order to avoid the annual holiday lag in blood collections.

The gift certificate will be made available to any individual donating blood to a family account during the next few weeks. When opening an account for a friend, persons are reminded to bring complete names and addresses.

# Battery Care

Emery cloth should be used to burnish a car's battery posts and the inner surface of cable clamps to get the maximum electrical output, according to auto experts. Cost the connections with grease or vasoline to seal them against acid fumes and moisture.
