

Why Slave Away Your Youth?

The motor High Speed Washer is making women stay young in more than 150,000 homes, because it makes the weekly washing a quick, easy, simple task. No more drudging for hours over a wash-tub and board—with its pains, aches, and disorders. The

MOTOR HIGH SPEED WASHER

is the best because it runs easier loaded than others do empty—due to its Spiral Cut Gears that insure speed and ease. It has a 4-wing wooden dolly—automatic cover-lift—ball-bearings—metal faucet—highly finished tub, backed by a 3-year guarantee. Your money back in 30 days if not satisfied.

Farmington people have been quick to see the advantages and pleasures to be derived from summer homes, and have had an exceptional opportunity to secure them at reasonable cost. As a result Farmington has a little home circle of cottages facing on the shores of Walled Lake, in what was formerly known as the Randall-Chapman subdivision, but recently named Czenaqua Shores. It is not surprising to find that many more locals are therefore buying and planning to buy lots and building cottages at the lake, as the price of lots still remains comparatively low. This year is going to see many new cottages erected in the subdivision, and not a few of them by local people.
