## WIRE THIEVES

Man and Woman Arrested by Deputy Sheriff Coers Early Monday Morning

As a sequel to a long and costly series of thefts of copper wire from the D. U. R., which has baffled the efforts of the officers for a long time, a couple giving their names as Daniel Summers and a woman claiming to be his wife, were ar-rested about 2 o'clock Monday morning as they were preparing to drive away from Stevenson's corners with a wagon load of copper wire cut from the lines of the D.

The thieves were busily at work about 26 cents a foot, from the a phone and notified Deputy Sher iff Goers, who telephoned the D U. K. and Pontiac officers, and At the close Dr. Holcomb an then made a hurried trip to the nounced in behalf of the Farming scene of the robbery, where the ton boys, that they were willing to couple were just preparing to drive play another series and furnish the away with about 500 feet of wire, worth about \$130.

The D. U. R. have had some 15 officers working on the case, but hand shakes for the various places Monday was the first that any of amusement. definite clue to the losses could be

The couple were well prepared for their job, having a complete set of linemen's tools, a market gardener's wagon with crates and bas kets as if on their way to Detroit with garden truck, The man would climb a pole, cut the wires, which were heavily charged, while the woman, with a pair of field glasses would watch the road. The wire was then cut into six foot lengths and concealed in the wagon under the crates, and any one meeting the pair would not suspect they were anything the ordinary market gardeners.

The couple arrested are said to be silent as to the disposition of the stolen property, and the officers are making every effort to find the outlet of the thieves for their loot.

It is thought, however, the same parties have been connected with all of the thefts, as some time ago it was found a horse answering the description of the one taken from the couple Monday, had been tied to a tree close to one of the cuts in wires near Ecorse. There some sorrel hair was found taugled in the bark of a tree. At another time a delivery wagon ,was seen passing through the village of Rockwood, where a cut was also made.

Cuts were made of three hundred feet near Trenton; 1200 feet at Gordon's switch; 983 feet near Rockwood; 685 feet near Ecorse and 700 feet at Ecorse; 725 feet at Trenton and 500 feet on the Visger road, just outside of Detroit, besides the 500 feet taken Monday

William Wilkey was struck by a speeding automobile while walk ing on the road near Royal Oak last Sunday evening. His body, face and hands were badly bruised and cut, and serious internal in juries are feared. The motorist did not stop to see what damage he had done.

#### Mr. Farmington Merchant

With the approach of the fall season the big jobbers and manufacturers will begin to send out their salesmen. Many of these sales men are going to call on you, Mr. Merchant. Here are a few sug gestions by which you might open the conversation with them

Ask them what they will do to help you sell the goods they want you to buy.

Ask them if their firm is going to advertise their goods in the news paper of your town. If they reply No, ask them why not?

Tell them that it is necessary for them to create the demand in your town, among your customers, for their line of goods; otherwise you cannot push their line in preference to those manufacturers or jobbers

who do create this demand. Tell them the best way to create the demand is to advertise in the local newspaper; that your customers read the newspaper published here; that you yourself advertise in it; that you are not willing to spend your money to make their particular brands popular in this town and later have them take the line away from you and give it to your com netitor.

Tell them that you favor goods which are advertised in your local newspaper because you find it more profitable to do so.

This is a good hand to hold. It should be a stand-pat one, and will work to your advantage if you use

#### Russia Contains 140 Races

The population of Russia is more varied than that of the United States, including Porto Rico, the Phillippines, the Sulu islands, Alas ka, Indians and all—in fact, more varied than the population of any other country in the world.

The population of Russia consists of over 140 different peoples, nationalities, nations, races, differ ing in lauguage, religion, dress, customs, mode of living, civilization, and living mostly apart from one another.

There are:

Fifty million Great Russians, or actual Russians or Muscovites (the inhibtants of the former grand luchy of Moskva) now ruling all Russia.

Twenty million Little Russians ormetly a part of Poland.

Twelve million Poles. Six million White Russiaus, form ly a part of Poland.

Two and a half million Finns. Two million Lithuanians, form-

rly part of Peland. Two million Germans.

Oue and one half million Letts

ormerly a part of Poland.

One and one half million Arme

One and one half million Rou

Fifty million Jews.

Sixty million of 140 other differ ent natious and races, as Tartars Kurds, Bashkirs, Samoyedes, Kirghizes, Kalmucks, Turks, Bulgars Greeks, Persians, gypsies and 120 others: Most all of these live in groups and clans on their ancieu

It would take centuries to mel these 140 different nations of different races, with 140 different languages and almost as many different religions, into one solid Russian

In the meantime scores of then hope to become free and indepen dent countries and thus pres their ancient home, nationality, language, religion and all.

The six year old son of Mr. and Mrs. Albert Sisson, of South Lyon died last Saturday night at the county hospital, of pneumonia.

The little daughter of W. S. Duncan fell from a see-saw last Saturday afternoon at Royal Oak and broke her arm.
