Devoted to the upbuilding of Farmington, and Oakland County

### THAT GOOD ROAD BONDING

To the average person the bonding of Oakland county for a million dollars for good roads sounds big, but when you stop and figure the proposition all out it will leave a good balance as compared with the amount you are paying at present for good roads—and the best of it is that we will, under the bonding system, have a network of good highways all over the county, whereas, under the old system of building a mile or two each year, it would be many years before the system would be complete.

The bond issue will be voted on the coming spring election and it is the duty of every citizen of the county to post himself and be qualified to vote intelligently on this important proposition.

The county commissioners have had maps of the county made showing each road to be built, which is a part of the proposition to be voted on, and if carried cannot be changed—the roads must be according to the schedule.

Your taxes will be less under the bonding system than they are at present.

Think it over, figure it out for yourself and see if it don't look like a proposition for you to support.

The writer lived in Genesee county when the proposition was voted on for that county, and the "good road" question was a hard one for the farmer to "swallow" at that time, but it was carried, and the roads have been built, and we venture to say not a farmer in Genesee county would wish to be back under the old road system.

"There are many different ways of making a living, but most of us have to work,"—Pontiac Press. Oh, we don't know. Musicians and baseball players only play for living.—Oxford Leader.

Congressman Samuel W. Beakes, of this district, has introduced in congress a bill to limit by constitutional amendment the president to one term of six years.

Considering that it was 60 below zero, we are not surprised to learn that the Ford party got a cool reception in Norway.

The "muse" sometimes keeps the poet awake, but it is the "mews" of a cat that disturb the slumbers of other people.

Looks as though England's conscription bill would give King George an Irish stew.
