WHY PRINCE ALBERT WINS

Patent Process Is Responsible for its International Popularity

Smokers so much appreciate the flavor and coolness and aroma of Prince Albert Pipe and cigarette tobacco that they often marvel that this one brand could be so different from all others.

The answer to this question is to be found on the reverse side of every Prince Albert package, where you will read: "Process Patented July 30th, 1907." That tells the whole story. Prince Albert is made by a patented process that cuts out the bite and parch, which makes the tobacco so mighty agreeable and satisfying to men of every taste of every civilized nation on the globe.

Smokers should realize that this patented process cost three years' continuous work and study and a fortune in money to perfect. But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy a pipe or a maki's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to roll his own cigarettes. And, no matter how tender the tongue, Prince Albert cannot bite or parch. That is cut out by the patented process, leaving for the smoker only the joys of the fragrant tobacco.

It is a fact that since Prince Albert "arrived," just about six years ago, it has made three men smoke pipes where one smoked a pipe before!—Adv.

BUSINESS EFFICIENCY.

"Young man," said the village merchant, "you can't unload any of your substitute stuff on yours truly. I know what I want."

"But, my dear sir," calmly replied the knight of the sample case, "I'm afraid you are not wise to the advantages of our educational campaign. We are spending half a million annually for the purpose of teaching the public to buy what we have to sell."

A Shy Shopper.

"That fellow has been dodging around the hosiery department for hours. Is he a shoplifter?"

"Oh, no," said the floorwalker. "I know the symptoms. He has been ordered to buy some stockings for his wife, and he is trying to catch a moment when there are no women at the hosiery counter."

Present Chances.

"That fellow who butted into me as I was trying to get Miss Mamie to dance with me is a subordinate officer in the Marine corps."

"How did you find out?"

"That's what?"

"Running the sub marine."

QUITE DIFFERENT NOW.

"When I was a boy I used to think there was a pot of gold at the end of a rainbow."

"And now?"

"I have turned my attention from rainbows to mining stocks."

Advice.

Advice should like a drug be used. Though sometimes it acts quicker. A little should not be refused. Too much will make you sicker.

Did He Get It?

"Want a job, eh?"

"Yes, sir; I am looking for a place where there is plenty of work."

"I am sorry, but there would not be enough work here to keep you busy an hour a day."

"That's plenty of work for me, sir."

Versatility.

"The pretty trained nurse I engaged made my little boy cough up a brass tack."

"She can do even more. She made a young doctor at the hospital she engaged to cough up a diamond ring."

Any Old Excuse.

"We're having a great boom in the sale of suburban property in Chicago," said the man from the West.

"I see," replied the New Yorker; "anything to get out of Chicago?"

The Enterprise ads will bring results. Give us chance to show you.
