More than just the Bug.

The VW family-left to right

DASHER. Everything you want in a car. It holds 5, does 0-59 in just 8.5 seconds, has front wheel drive, needs maintenance only every 10,000 miles, and has the amazing 5400rpm. 25 MILES PER GALLON

VW BUS. Easier to load in '74 because our rear seat now folds down instead of removing. A bigger engine and 170 cubic feet of cargo space allows room for everyone and everything with economy and power to spare. 18 MILES PER GALLON

KARMANN GHIA. Be a sport in the VW that doesn't look like one but acts like one. Designed by Ghia and assembled by Karmann, this sports car gets VW mileage with an economy price to match. 25 MILES PER GALLON

THE THING. The tough car for the country or city and you don't have to drive it. Versatile—a top that goes down, doors that come off, a windshield that flips down, independent suspension. 21 MILES PER GALLON

And don't forget the Bug.

VW SUPER BEETLE
Every year for 25 years we've improved. 1974 is no exception—the original economy car keeps getting better and better. 25 MILES PER GALLON
