

# Mild Laxative for Baby Free

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents for most children are born into the world healthy, but thousands become future weaklings between birth and the age of ten, when the parents are still in greatest control. The prime cause of trouble is in the stomach. A baby that is digesting food seldom cries and always looks cheerful; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if its head is clear, and its stomach light, and that means if it has no constipation. The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Dillman, Fairville, Ind., and numerous others can testify who give it to their children with extraordinary results. A bottle only costs 50 cents or 41 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in constipation, sour stomach, indigestion, torpid liver, dyspepsia, head-ache, sick headache and similar digestive troubles. It never grips or strangles like pills, tablets, salts and powders, which should not be given to children, women or old folk. If you have a child or other member of the family who needs, but has never used this grand laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this way you can find out what it will do without personal expense. If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell Bldg., Monticello, Ill.
