WILD WEST AND FAR EAST

Many Interesting Features Will Be Seen at Buffalo Bill and Pawnee Bill Exhibitions

Considerable interest has been aroused in this vicinity through the announced appearance of Buffalo Bill's Wild West and Pawnee Bill's Far East at Detroit July 5.

Col. Wm. F. Cody, the original and only "Buffalo Bill," travels with the big exhibition and positively appears at every performance rain or shine. Arrangements have been made with the railroad officials to run excursions at special rates from the various stations along the line and there will be special provisions for the accommodation of those who wish to visit the exhibition. To the small boy and grown up Buffalo Bill will be the chief attraction, for his fame is not dimmed by the years which have elapsed since he helped write the story of the west through his heroic deeds. One of the principal contests of the redmen, in which in which he took part will be pictured in the opening melodrama, The Battle of Summit Springs, an engagement in miniature introducing more than one hundred Indians and as many cavalymen and soldiers. Contrasted with this scene will be an Oriental Spectacle which will picture the gorgeous beauties of the Far East, its pageantry and people, its pleasures and pastimes, and its strange costumes and customs. Turning again to American history there will be an attack upon an emigrant train, A holiday at "T E" ranch, and The great train hold-up by the Indians, showing varied pictures of early life upon the boundless plains. Rossi's musical elephants will be a particular feature of the Far East scene, and as an individual feature of the Wild West section of the exhibition, Ray Thompson's Trained Western Race horses will be shown in feats of grace and equine skill. Sharpshooting by Johnny Baker will be a particular attractive feature, and a bunch of bucking bronchos will furnish the principal comedy element of a truly exhilarating and strenuous exhibition.

Card of Thanks.

We wish to thank our many friends and neighbors for their kindness and assistance in the last sickness and burial of our wife and mother; also the singers for the beautiful selections rendered.

## The Free Sewing

Machine makes life worth living. You simply raise the lid—one movement—a light and easy lift, and you are ready to sew.

The head is up, fastened in place—the apron is raised giving plenty of room for the knees—the drawers are unlocked ready for use—the belt is on above and below, in fact the machine is ready for business.

Now, isn't that convenient! Isn't FREE automatic lift a feature to be appreciated? Of course there are other automatic lifts on sewing machines—"contraptions" to raise the head automatically with the lid, but none like THE FREE. It is a perfectly balanced arrangement carefully studied and mechanically correct. It is simple, durable, noiseless and out of the way.

You will find that with the usual automatic lift it is a case of TUG and PULL—really harder to operate than if you had to lift the head direct. With THE FREE, the minimum power only is used, seven pounds, because we have applied the principle of leverage scientifically.

Read carefully the mechanical description of THE FREE automatic lift—note how beautifully the short bar is fitted to the table—see how easy it is to adjust any slack. This automatic lift is far ahead of other similar arrangements as THE FREE machine is ahead of other machines.

There is enough work in the house—outside of the sewing room. Every additional inconvenience on the sewing machine—no matter how small, makes work. Every convenience is sure to be appreciated—every woman will appreciate this good feature on THE FREE. There is no automatic lift that is equal to THE FREE.
