Anniversary volume updates banking history

DETROIT AND ITS BANKS
Reviewed by Carol Casselman
A very unassuming book made
its world debut a few months ago,
but "Detroit And Its Banks" by
Arthur M. Woodford went largely
unnoticed. Yet it's a very important little book for several reasons.
Detroit Bank and Trust commissioned this volume to mark its
125th anniversary. This is the
book's primary purpose — to announce that Detroit Bank and
Trust is the oldest bank im Michigan and proud of its many years of
service. But Woodford was not
service. But Woodford was not
service beginning a book to
commemorate a bank's anniverworld. But they routinely relate
world. But they routinely relate
world

Until the book's publication, scholars, businessmen and other interested persons had no up-to-date source of its kind to use for reference, according to Darwin D. Martin, Jr., assistant vice president and director of public relations for Detroit Bank and Trust.

All facts in the book were checked for authenticity by two Wayne State University history prifessors. The publisher of the wind the property of the pro

A car made

Would you believe an assembly line car with the whole body made of plastics? And, in the meantime, cars in 1980 with 400 pounds of plastics in their exteriors and interiors?

Two Michigan State University professors of chemical engineering think that wouldn't be all bad, and that there could be greatest extended with more plastics, and that the processors of chemical engineering think that wouldn't be all bad, and that there could be greatest would run on less gasting reater use of plastics in the nonfunctional parts of autos.

Wetal fenders, lower panels below doors and elsewhere, which nonfunctional parts of autos.

Wetal fenders, lower panels below doors and elsewhere, which tend to rust out, could be replaced with more plastics, and that the fenders, lower panels below doors and elsewhere, which tend to rust out, could be replaced with more plastics, and that the fenders, lower panels below doors and elsewhere, which tend to rust out, could be replaced with more plastics, and that the fenders, lower panels below doors and elsewhere, which tend to rust out, could be replaced with more plastics, and that the fenders, lower panels below doors and elsewhere, which tend to rust out, could be replaced with more plastics, and that the fenders, lower panels below doors and elsewhere, which tend to rust out, could be replaced with more plastics, and that the fenders in the fenders of th

STEEL AND PLASTICS pro-STEEL AND PLASTICS production are both high-energy industries, he added, and both are dependent off imports—the steel for its alloys and plastics for the basic petrolem. Aluminum production requires even more energy, with a poulta of alluminum produced requiring four times as much energy las is needed to make one pound of plastics.

Blanks said.

Repairs, replacements and insurance costs also could be cut, according to the auto executive speaking at a professional meeting in New York.

The MSU professors are among chemical engineers advocating a national policy of allocation and uses for petroleum and its byproducts such as petrochemical splastics, and gasoline.

"We are still in an energy crisis," Hawley said. "So far, only stop-gap arrangements have come from the Federal Engrey Office.

"What we need, and what should come from the new Federal Engrey Administration, is a longer range system which keeps in mind the values involved, the amounts of production, and the alternative
