Check these RCA XL-100 features:

RCA AccuLine picture tube system for brilliant, sharply detailed pictures, fewer service adjustments.
Sharp definition—brilliant contrast from precision in-line picture tube system. And, RCA's design eliminates 12 dynamic convergence service adjustments which dot-screen portable TVs can require. Yoke is permanently bonded to the tube, can't shift position.

XL-100, 100% Solid State reliability. There are no chassis tubes to burn out, a major cause of TV repairs. Uses less energy, too—27.5% less than comparable RCA tube-type sets.
