Michigan Crop Report.

Crop correspondents throughout the state, with few exceptions, report wheat in good condition, with prospects of better than an average yield and of extra quality.

The average estimated yield in the southern counties is 17, in the central and northern 15 and in the state 16 bushels per acre. The total number of bushels of wheat marketed by farmers in June at elevators is 62,090, and at 52 elevators and to grain dealers 21,063, or a total of 83,693 bushels. Of this amount \$3,443 bushels were marketed in the southern four tiers of counties, 26,478 in the central counties and 3,773 in the northern counties. The estimated total number of bushels of wheat marketed in eleven months, August-June, is 10,000,000. The amount of wheat yet remaining in possession of growers is estimated at 300,000 bushels. One hundred and ten mills, elevators and grain dealers report no wheat marketed in June.

The average estimated yield of rye in the state and the different sections is 15 bushels per acre. The condition of corn in the state and southern counties is 53, in the central counties 80 and in the northern counties 85.

The acreage of buckwheat sown, compared with an average for the past five years in the state, southern and northern counties 87 and in the central counties 85.

The acreage of beans planted, as compared with an average for the past five years in the southern counties 103, in the northern counties 96 and in the state 97. The condition of beans, compared with an average in the state and the different sections is 91.

The condition of potatoes in the southern counties is 93, in the central counties 90, in the northern counties 91 and in the state 92.

The condition of sugar beets in the state and southern counties is 88, in the central counties 91 and in the northern counties 84.

The condition of clover this year, as compared with an average in the state and central counties is 96, in the southern counties 97 and in the northern counties 93.

The acreage of clover that will be harvested, compared with an average for the past five years in the southern counties is 79, in the central and northern counties 84 and in the state 81.

The acreage of timothy that will be harvested, compared with an average for the past five years in the southern counties is 75, in the central counties 90, in the northern counties 85 and in the state 80.

The acreage of peas sown, compared with an average for the past five years in the southern counties is 86, in the central counties 85 and in the state 89.

The prospect for the apple, pear, peach and plum crop is not as favorable as it was on June 1, owing to a heavy June drop and ravages by insects.

According to an announcement made by a treasury department official, the new one cent piece now being made at the Philadelphia mint will be put in circulation probably this week, when 150,000 of the glittering coin will be ready.

The new cents, which were designed at the mint, will replace the familiar American Indian head with the likeness of Abraham Lincoln.

In a Glasgow car was an aged Irishman who held a pipe in his mouth. The conductor told him he could not smoke, but he paid no heed. Presently the conductor came into the car again and said with a show of irritation: "Didn't I tell you not to smoke in this car?" "Well, O'm not smoking."

"You have your pipe in your mouth." "So O! have me feet in boots," said Pat, "but O! not walking."

For Sale—Small farm, 26 acres, house and barn, two miles west of Farmington on Grand River; fruit stream of water running across it. Price \$2,000. A bargain for someone. Inquire at this office.

A Beautified Park.

The Michigan State Fair grounds at the present time has the appearance of a great city park. The recent rains have produced a luxuriant growth of grass, shrubs and flowers, that make the place in every direction a joy to look at at this time of the year.

Attendants are constantly at work mowing the grass, trimming the plants and at the same time installing shrubs and flowers that are planned to produce a most gorgeous effect during the fair next September.

The roses are just beginning to burst into bloom which will produce an inspiring effect during the next few weeks.

Nursery companies are already preparing for the great fall exhibit and have many men at work arranging flower beds and shrubs to attract attention when the fair opens.

Car loads of gravel and cement are being shipped into the grounds for long stretches of cement walks that will take the place of muddy thoroughfares. This is an improvement that will be greatly appreciated by the general public. Besides eliminating a large amount of muddy walk, dust will also be done away with.

At the present time a new horse track—240 feet long—is being erected. It will be one of the finest in the country and a great convenience to horsemen and others who will exhibit at the coming state fair. This structure was started early and will be fully completed long before the fair opens.

Other features are being completed which will add to the convenience of the great institutions.

BUSINESS MEN'S DAY.

Detroit Wholesalers to Entertain Michigan Retail Dealers.

Wednesday, September 4, will be "Wholesalers' night" at the Michigan State Fair and the Detroit Wholesale Association has arranged a program of entertainments that will give the visitors an extremely delightful time.

On this occasion merchants from all parts of Michigan and the surrounding states will be given the Detroit opportunity which will be the Detroit opportunity which will be the Detroit opportunity.

The Michigan State Fair and the city of Detroit has a reputation for doing things and the visitors on that day will be treated to surprises at every turn.

The Wholesalers' association will have a tent on the grounds with free telephone service to visitors who thus will be able to talk with friends back home.

The evening will be known as "Wholesalers' night" for which a special entertainment will be presented including a magnificent fireworks display and a musical vaudeville performance which will take place in front of the grand stand. A grand display of fireworks, including many large places, will conclude the evening.

Michigan retail merchants say that Detroit is one of the best places in the country in which to buy goods. About everything under the sun can be found there. The shops, mills and businesses are numerous and the proprietors cater to the very highest class of trade. This fact was demonstrated a year ago when five thousand and six hundred merchants attended the annual meeting.

It is expected that this year's attendance will exceed that of 1908. The railroads are interested in the event and will furnish cheap rates into Detroit from every part of the state.

Real Indian Village.

The American Indian is gradually disappearing and his mode of life is becoming more interesting each day to the general public. The management of the Michigan State Fair, realizing the educational features that lie in the Indian village, has secured an attraction of this sort, which is pronounced to be one of the leading features of the Midway at the coming State Fair, September 2 to 10.

This is a real Indian village and consists of "Chief Two Stars" and his followers consisting of one hundred persons.

The Indians will live at the Fair grounds in tepees, in the same wild style that existed on western plains fifty years ago.

These Indians will eat, sleep and appear in a semi-barbaric style that will be interesting to every visitor at the grounds. This attraction will be as fascinating to adults as to the children. The Indians will execute war dances, shoot with arrows, ride bucking broncos, rope cattle and do every thing that is so common on the western reservations.

The State Fair of Today.

The state fair has become recognized as an auxiliary in helping to build up the general agricultural interests of live stock and agricultural districts. The incentive of exhibition contest and friendly competition at the Michigan State fair, which opens September 2 and continues until September 10, will stimulate and encourage in the mind of Michigan stockmen and agriculturists, a feeling following year to do something better.

The fair influence is not confined to one line or one branch of agricultural industry, but extends to every department of home life, farm and industrial enterprise. It is sufficiently broad to take in every feature of manufacture and production, even to the educational accomplishments of the public schools of the state.

The Michigan State fair has become the great clearing house institution as it were, for the breeder, the feeder, the producer, the scientist, and in fact every branch of industry to be introduced to an intelligent and appreciative public. It is here where the wide-awake producer brings the best, the choicest of his best, the pick of his product of whatever nature, to test the merit and its value when placed in comparison with the work and efforts of others. The State Fair is an educational institution and a means of congregating into one system of everything the state has produced.

LAUNDRY

Bring your Laundry to the Yellow Front.

We have a few good farms listed with us from 100 to 150 acres only a few miles from Jackson, Mich., at reasonable prices. If you are looking for a farm call at the Enterprise office and see us.

Accidents Will Happen

And when they do, you should be prepared with a bottle of Renne's Pain-Killing Oil. The best remedy in the world for all aches and pains, no matter where they occur. For both internal and external use. The best on the market. Price, 25c, 50c and \$1.00 per bottle. Sold by T. H. McGee.

F. L. Manning, Jackson, Mich., writes:

This is to certify that I have been a constant user of Renne's Pain-Killing Oil in my family for the past 20 years, and would not more think of being without it, at all times in the house, than I would without food. I know that by having it at hand to apply at once, we have saved much suffering and doctor bills. Get it—keep it handy at all times, study the directions closely, follow them and you will never regret it.

ENTERPRISE \$1 PER YEAR.

Invest in Timber

A VISIBLE INCREASING SECURITY

20% Earnings

THE MICHIGAN PACIFIC LUMBER COMPANY

Commenced operations April 1st, and reports are received from the Camp regularly. Logs are now being delivered to the mills at the rate of 150,000 feet daily at a profit of \$6.00 per thousand feet; \$900 per day, or \$300,000 per year. These are facts, not estimates. The Company will market 300,000 feet daily next year—figure for yourself what the profits will be. At this rate it would take twenty-five years to cut the timber.

If you are interested in learning how money is made from operation in Timber, write us for copies of the reports as they come from Camp.

PROPERTY

80 square miles—2,850,000,000 feet of Timber—On old water—30 miles from market—Value today as standing Timber \$2,000,000. Bond issue represents but 10-12 cts. per thousand. Capitalization less than actual value.

We have purchased \$500,000 of the first mortgage 6% bonds on this property, together with a large block of the capital stock and are now offering same to our clients, and the Michigan public generally. We bought these bonds and stock last fall when logs were selling at \$8.50 per thousand feet. They are now worth \$11.50 and will sell much higher. To purchasers of bonds we extend the privilege of buying a like amount of stock. As often as \$50,000 of the bonds are sold, the price of the stock will be advanced until it is selling somewhere near its value. It is listed on the local Detroit Exchange where a ready market is obtainable. Watch the daily papers for quotations and
