Introducing MOUNTAIN LIGHT A Sleeping Bag of Fortrel Boleguard® from SNOWLION

An exciting addition to our 1975 Fortrel® line, the MOUNTAIN LIGHT completely overcomes the most common criticism of synthetic bags—weight and bulk. With an average total weight of only 3 lbs. 8 oz., the design and production of the MOUNTAIN LIGHT represents a major achievement in the construction of Fibertex sleeping bags. Colson Fortrel® Boleguard® is rugged and durable because it is 100% Continuous Filament Polyester Fibertex. An extremely attractive contoured mummy shape, wide at the chest, tapered at the hems, is enhanced by 8 oz. Fortrel® Offcut Double Quilted on top and bottom, a roomy foot section, and our exclusive Side Seam Overlay which makes the MOUNTAIN LIGHT the first sophisticated Fibertex bag light enough for the serious backpacker or climber.

42 ounces Fortrel® FIB Average Min. Temp. Conservatively Estimated: 20° F Total Weight: 3 lbs. 8 oz. Available in Navy Blue or Burnt Orange Shell Both Included

Fortrel® and Boleguard® are trademarks of Fiber Industries, a subsidiary of Colson Corporation.
