

TEST DRIVE THE REMARKABLE SONY

TRINITRON 19" DIAGONAL SCREEN

Our slim, fully automatic family-size Trinitron brings you a dazzling show of clearly brilliant color by way of a remarkably sophisticated system, one which automatically adjusts brightness and contrast to changing room light and conserves power.

QUALITY SHOWS

TRINITRON 19" DIAGONAL SCREEN

A quality color picture tube that sparkles with clarity and contrast, yet is natural and distinct. And, owing to our advanced development of a unique 114° wide-angle picture tube, you get a bright sharp picture in the slimmest cabinet around.

RISE ABOVE IT ALL

TRINITRON 17" DIAGONAL SCREEN

Going on the theory that color television can never be too thin or too sophisticated, we bring you the Sony Trinitron hi rise. It incorporates an advanced 114° wide-angle deflection picture tube, and a host of superior performance features.
