

The A.J. Miller's family room

## Informal living here

Turning the tables in any home's decor can be done in the second living room, library, den or family room.

A home's basic decor is generally established in the home's larger rooms, but designers often take a different tack in this second living room to create yet another mood in a home.

Usually this room is considered less formal than its larger sister the

living room, or reception room, if you happen to be a sheik.

Family rooms called dens and libraries if you don't happen to have a family, can be a charming place for collections of trophies, books, records, hi-fi equipment or natural things like rocks and shells, but it does not have to be the dumping ground for furniture (Continued on page 24)

Something New Has Been Added To Our Window Treatments.
